Experience

Data Science Intern | Celebal Technologies

Jun 2025 – Aug 2025

- Applied Python (OOP), Pandas, and NumPy to preprocess, clean, and structure datasets for analysis.
- Conducted exploratory data analysis using Matplotlib and Seaborn to identify patterns, trends.
- Wrote optimized SQL queries for extracting, filtering, and transforming data from relational databases.
- Collaborated on assignments and mini-projects, strengthening analytical thinking and data-handling skills.

Projects

Developer Vault

[GitHub](#)

- Developed a desktop productivity application using **Python** and **Tkinter** GUI framework, applying **Object-Oriented Programming** (OOP) principles.
- Implemented full CRUD operations across 4 modules with **JSON** based persistent storage and **UUID** based record identification for zero data loss.
- Designed a real-time Dashboard in **Tkinter** displaying aggregate analytics across Projects, Notes, Code Snippets, and Documents using **Python** data structures.
- Integrated Python file handling and **exception handling** for error-safe local file browsing and automatic file-type detection.

Book Recommendation System

- Developed a collaborative filtering recommendation engine using a real-world user-book interaction dataset.
- Created user-item matrices and implemented cosine similarity for personalized recommendations.
- Utilized Pandas, Numpy, and Scikit-Learn for pre processing and recommendation generation.
- Improved recommendation relevance through similarity optimization and filtering techniques.

Sales Trend Analysis

- Complex SQL queries involving joins, aggregations, and subqueries to analyze sales performance.
- Extracted and transformed transactional data from relational databases.
- Conducted revenue and customer behavior analysis to identify business trends.
- Generated analytical reports supporting data-driven decision making.

Skills

Programming	Python, C++, SQL
Libraries	Pandas, NumPy, Matplotlib, Seaborn, Scikit-Learn
Tools	Power BI, GitHub, Jupyter Notebook
Core Concepts	Object-Oriented Programming, DBMS, Data Structures
Professional Skills	Data Analysis, Problem Solving, Visual Communication, Data Storytelling

Education

Poornima Institute of Engineering & Technology	2022 – 2026
B.Tech in Computer Science	Jaipur, India
DCS International School	2021 – 2022
12th PCM	Jaipur, India

Achievements & Certifications

- Data Science & Analytics Certification – Imarticus Learning
- Claude Certifications - [LINK](#)
- Core Member – Helping Hands Group (NGO), PGC
